

CALIFORNIA REGIONAL WATER QUALITY CONTROL BOARD
SAN FRANCISCO BAY REGION

ORDER NO. 77-3

ORDER AMENDING ORDER NO. 75-55

TO ADOPT A REVISED COMPLIANCE TIME SCHEDULE FOR:

CITY OF PALO ALTO - SANITARY LANDFILL
SANTA CLARA COUNTY

The California Regional Water Quality Control Board, San Francisco Bay Region, finds that:

1. The Regional Board on August 19, 1975, adopted Order No. 75-55 prescribing waste discharge requirements and compliance time schedules for the City of Palo Alto Sanitary Landfill, Santa Clara County.
2. Provision C.2 of Order No. 75-55 requires that the City comply with specification B.2, which is protection of the landfill against the 100 year flood, by November 1, 1976. Construction of the necessary improvements of the levees is being accomplished by the Santa Clara Valley Water District, which handles flood control in the area. The project has been delayed by factors beyond the City's reasonable control, including the necessity for a Corps of Engineers permit, and preparation of an Environmental Impact Report.
3. The Board adopted a Water Quality Control Plan for the San Francisco Bay Basin, in April 1975, and this Order implements the Water Quality objectives stated in that Plan.
4. The Board has notified the discharger and interested agencies and persons of its intent to amend waste discharge requirements for this site.
5. The Board, in a public meeting, heard and considered all comments pertaining to the discharge.

IT IS HEREBY ORDERED that Order No. 75-55 is amended to read as follows:

Provision C.2.

Specification B.5 shall be complied with upon adoption of this Order. The discharger shall comply with the following time schedule to assure compliance with Specification B.2.
